

Supporting both AC and DC coupling, up to 10 units can be connected in parallel, with a maximum capacity of 2150kWh. It adopts a built-in air duct design and supports a charge/discharge rate of ...

With a 200.7kWh capacity, it integrates BMS, inverter, and MPPT for seamless on/off-grid transitions, enabling flexible and efficient energy dispatching. Equipped with dual fire suppression systems and ...

It features multi-layered safety measures, including fire suppression and continuous monitoring. Scalability from 200 kWh to 4.8 MWh and seamless integration with the leading brands of C& I hybrid ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

It can be used with our company's Atlas Lithium Powerwalls & inverters for quick and clean wire management & fire safety protection or with any brand you choose.

Our standard cabinet comes with fire system isolation, state-of-the-art liquid-cooling technology, combustible gas detection, and an FM200 fire extinguishing system, ensuring the safety and ...

AZE's outdoor cabinet energy storage system is a compact and flexible designed on the characteristics of small C& I loads. The system integrates core parts such as the battery units, PCS, fire ...

Our 200KWh outdoor cabinet energy storage system features a battery pack system enclosure with triple fire protection. With independent relay protection and battery-level thermal monitoring, you can ...

As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process.

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.
