

# 50kW Outdoor Shelf for Steel Plants in India

Where to buy heavy duty racks in India?

We offer a premium range of Heavy Duty Rack designed for safe, efficient, and space-saving usage across various industrial applications. PRK Steel Products Pvt. Ltd., based in Faridabad, India NCR, is one of the most trusted manufacturers and suppliers of Heavy Duty Racks in India.

How many steel plants are there in India?

According to the latest data presented by PIB, there are more than 900 steel plants in India that produce crude steel. These are owned by PSUs, large-scale companies as well as small and medium enterprises (SMEs). In the year 2021-22, the total capacity of these plants stood at 154.06 million tonnes.

Where are steel plants located in India?

Most of the steel plants in India are located inland. Vizag is the only place with a steel plant that is located on shore. The first steel plant in India was established at Jamshedpur, Jharkhand by Tata Iron and Steel Company (TISCO) now known as Tata Steel. The plant began operations in 1912.

What are the favourable factors for steel plants in India?

Iron ore is one of the key raw materials for producing steel and its availability within the country is one of the key favourable factors for steel plants. Easy labour availability: Labour in India is available at a cheaper cost if compared to other countries. Therefore, it gives a cost advantage to the steel plants.
