

With a strong focus on research and development, Aiko has introduced its own innovative solar cell technology - the All-Back-Contact (ABC) design. The Neostar 2S+ 465W double glass module ...

480Wp -0/+5W, monocrystalline half-cells, N-Type ABC, double glass module 2mm + 2mm ; black mesh between the cells; PFAS free, black aluminium frame; MC4-EVO2 connector; dim: ...

Now, Chinese manufacturer Aiko Solar has announced a breakthrough for its ABC (All Back Contact) modules. According to the announcement, the ABC module in the "Stellar" series is ...

Invest in quality - AIKO Neostar! The AIKO AIKO-A470-MAH54Dw from the Neostar 2P+ product family impresses with 470 Wp peak power and an efficiency of 23,6%. This high-performance module ...

Find the best dual-glass solar panels with ABC technology. Superior durability, enhanced performance, and custom manufacturing solutions explained by experts.

Maximize project profits with 480-490W dual-glass modules. Ultra-low 0.35% annual degradation. Optimized for partial shade and high temperatures. Fast shipping on bulk orders.

It is an innovative modular design with full rear wiring, double tempered glass, and a white reflective layer that achieves market-leading efficiency and aesthetics.

Ask a free quote to Coenergia for Aiko double-glass half-cell photovoltaic module with 108 cells, with N-Type ABC technology, for photovoltaic installation

The Stellar ABC module -- AIKO's flagship solution for floating PV applications -- is currently the world's only commercially available double-glass module featuring copper ...

The Stellar ABC series is the only copper-interconnected, double-glass module qualified for floating PV installations. AIKO said that these modules have shown significantly lower power loss ...
