

Project launched in Albania for production of battery energy storage Vega Solar and Indian company Sainik Industries - Getsun Power agreed to build the first lithium ion battery factory in Albania.

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...

Imagine explaining Tirana's power station designs to someone sipping macchiatos at a local kafene. You'd say: "It's like building a giant phone charger for the city - but instead of ...

Tiamat, known for introducing the world's first sodium-ion battery, aims to reshape the landscape of automotive and energy storage sectors through large-scale production.

Could Tirana become the Balkans' battery capital? With 300+ sunny days annually and EU accession talks progressing, the pieces are aligning better than a Byrek's phyllo layers.

Well, Tirana's new 84MW/168MWh battery storage system - the largest in Southeast Europe - is flipping that script. Operational since February 2025, this \$73 million project stabilizes a grid where ...

Ever wondered how a city keeps the lights on when the sun isn't shining? Enter the Tirana Times Energy Storage Battery Project - Albania's answer to renewable energy reliability.

Sodium-ion batteries represent a promising and sustainable alternative to Lithium-ion batteries in today's energy storage sector. As the world anticipates lithium demand exceeding supply ...

Spanning 200 hectares, the power station is projected to yield 265 GWh annually and effectively offset over 29,165 tonnes of CO2 per year, perfectly aligning with Albania's ambitious goal of achieving ...

Tirana-based Vega Solar, which develops, installs and maintains rooftop solar power plants, saw an opportunity to contribute to diversification with battery energy storage systems.
