MonitorSee MoreThe Global Wind Power Tracker (GWPT) is a worldwide dataset of utility-scale, on and
offshore wind facilities. It includes wind farm phases with capacities of 10 megawatts (MW) or more.

```

Interactive map of wind farms in the US. View the largest projects, track new developments, and explore capacity data across all states.

Explore wind farm projects and discover the forces driving their growth, impact, and future potential.

Explore the latest offshore wind projects in the U.S., including those in service, under construction, and under development. Learn about the capacity and timeline of key projects ...

The following table lists the offshore wind projects in service, under construction, and in various stages of development.

The United States Wind Turbine Database (USWTDB) provides the locations of land-based and offshore wind turbines in the United States, corresponding wind project information, and turbine technical ...

The Global Wind Power Tracker (GWPT) is a worldwide dataset of utility-scale, on and offshore wind facilities. It includes wind farm phases with capacities of 10 megawatts (MW) or more.

This blog provides a complete overview of the Top 10 upcoming offshore wind farm projects in the world 2025, highlighting their capacity, locations, developers, and current development status.
