

Custom-made European communication power supply cabinet with 800mm depth

What is a 42U NavePoint commercial server cabinet?

The 42U NavePoint Commercial Series network server cabinets have capacity and quality --everything it takes to get the job done right for your high-density applications that rack and store a range of 19-inch equipment like servers, patch panels, PDUs, routers, and more.

What is a 42U server rack cabinet?

Our 42U server rack cabinet has a glass front and perforated French rear doors to facilitate airflow. Quick-release, lockable side panels allow for easy access, while increased depth allows for cable management and PDU installation behind equipment.

Are NavePoint cabinets heavy duty?

The Commercial Series cabinets define heavy duty - the 42U model holds a static load of 3000 lbs (stationary). The NavePoint Commercial Series cabinets come pre-assembled for easy setup and include pre-installed heavy-duty locking casters for mobility, and leveling feet for use when the fully racked cabinet needs to stay in place.

How much weight can a UPS cabinet hold?

This robust construction ensures the cabinet can support up to 1200kg (2645 lbs), which is more than enough to house even the heaviest duty IT equipment, such as servers, UPS power supplies, switches, and routers.
