

Guoxuan High-tech primarily specializes in developing and manufacturing advanced energy storage solutions, most notably lithium-ion batteries and flow batteries.

According to Zhang Dongsheng, director of the Guoxuan High-tech Energy Storage Research Institute, the product has currently received orders for more than 6GWh of projects under ...

As a key player among China's cadre of EV battery makers leading electrification efforts worldwide, Guoxuan High-Tech (Gotion High-Tech) kicked off 2024 with an agreement to cooperate with Chery ...

This new battery, which uses a sulfide solid electrolyte system, has an energy density of 350Wh/kg, exceeding traditional ternary lithium batteries by more than 40%, and is expected to ...

The entire project utilizes a 3.42MWh liquid-cooled energy storage system provided by Guoxuan High-tech. Okinawa Electric Power Company, Ltd., recently announced the official commercial operation ...

At the SNEC 2025 exhibition, GuoXuan High-Tech proudly unveiled an array of energy storage solutions, highlighting the groundbreaking Qianyuan Zhichu 20MWh energy storage battery system ...

Guoxuan High-tech stands at the forefront of the energy storage industry, offering a sophisticated portfolio that includes lithium-ion batteries, energy storage systems, battery ...

Under the large-scale expansion, Gotion Hi-Tech has built a production and R& D system from lithium resources and battery cell manufacturing to battery PACK and energy storage systems, ...

Investors should be aware that system response, execution price, speed, liquidity, market data, and account access times are affected by many factors, including market volatility, size and type of order, ...

It is mainly engaged in mining resource development, lithium carbonate extraction, lithium battery R& D and manufacturing, and energy storage system development, etc., to create a full industrial chain ...
