

The state-owned Guyana Energy Agency has kicked off a tender for the transportation, installation and commissioning of solar systems with accompanying battery energy storage systems ...

The 5-megawatt-peak (MWp) solar plant, paired with a 7.5-megawatt-hour (MWh) Battery Energy Storage System (BESS), was officially inaugurated on Saturday by Prime Minister Brigadier ...

Our premium-grade solar panels deliver high performance even under intense tropical sun. Designed for durability and efficiency, they help you cut your electricity bills while powering your home or business ...

This development represents Guyana's first utility-scale solar PV and BESS investment and mark a significant milestone in the country's renewable energy transition.

The Guyana Power and Light company GPL has been donated a solar PV plant through the UAE-CREF program to provide the island of Wakenaam in Guyana with green energy.

The Government of Guyana has signed a contract for the Linden utility-scale solar project, the largest renewable energy initiative of its kind in Guyana, a release from the Prime ...

The installations amounted to a collective solar capacity of 69kWp and included battery energy storage systems (BESS), totalling 302kWh. The beneficiaries and installed capacities are as ...

The Guyana Energy Agency (GEA) has opened a procurement process for the supply and delivery of solar PV equipment for solar PV installations in 21 public and community buildings in 8 lots.

Spread across 13 acres, the solar farm combines 5 MW of photovoltaic capacity with battery storage technology capable of retaining surplus energy during daylight hours and supplying it ...
