

Are solar panels a scam? Solar panels themselves are not a scam. When the sun shines on solar panels, they produce electricity that can be used to power appliances and devices in your home. ...

Scams are unfortunately common in the solar industry. Learn more about some of the most likely scams you may face when trying to go solar.

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading claim.

The solar panels are of high quality and the team members are always available to answer any questions or concerns. I highly recommend Hanergy holding group to anyone looking for reliable ...

While leasing or using a Power Purchase Agreement (PPA) for solar panels isn't inherently a scam, these contracts can be challenging to break. Be cautious, as they may lock you ...

Is my solar panel installer going out of business? If you're not sure whether your solar panel installer has gone out of business, and a cold caller is insisting they are taking over, don't take their word for it. In ...

Let's face it - even the shiniest solar panels can cast shadows. As someone who's reviewed over 200 renewable energy projects, I've seen how Hanergy's thin-film technology revolutionized solar ...

- The report argues that Hanergy Solar is a "complete fraud" with no real business, as 100% of its revenue comes from related-party sales to its controlling shareholder.

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...

While rooftop solar panels are becoming increasingly ubiquitous in homes throughout the United States, the industry also has a more sinister side: a seemingly widespread problem of ...
