

How much does a 5 kW solar system cost in Atlanta?

While a 5 kW system will only cost you \$13,563 in Atlanta, GA, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Atlanta, GA?

How much does a solar panel installation cost in Atlanta?

A typical solar panel installation costs anywhere from \$9,555 to \$27,300 in Georgia. Prices in Atlanta are comparable, ranging from \$9,338 to \$26,679 on average. Installers usually price systems according to their wattage. Nationally, costs per watt range from \$2.50 to \$5. In Atlanta, the average cost per watt is \$2.67.

Are solar panels worth it in Atlanta?

Solar panels are worth it in most areas, including Atlanta, GA. Certain factors, including the cost of electricity, incentives, climate, and the angle at which the sun hits your roof impact how quickly you break even on your investment relative to other areas around the U.S.

What makes a good solar company in Georgia?

In our experience, the best solar companies in Georgia have a few things in common: lots of experience, reliable equipment and transparent contracts. Here are some hiring tips. Avoid scams: One of the most common solar scams involves fake solar companies selling systems without any intention of really installing them.
