

Ethio Telecom, in partnership with Huawei, has completed the commercial deployment of Africa's first Solar-on-Tower solution, marking a major step in Ethiopia's transition toward greener ...

Ethiopia's leading operator, Ethio Telecom, in collaboration with Huawei, has announced the successful commercial deployment and stable operation of the first batch of Solar-on-Tower ...

China-headquartered Huawei and Ethio Telecom have completed Africa's first Solar-on-Tower deployment in Addis Ababa. The solution has integrated photovoltaic panels on telecom ...

Ethiopia Today (Addis Ababa), August 29, 2025: Chinese telecom vendor Huawei has partnered with Ethio Telecom to deploy solar panels at some of Ethio's tower sites. The company ...

The solar-on-tower project aims to cut fuel consumption, reduce carbon emissions, and address urban space constraints by integrating solar panels directly onto telecom towers.

The technology integrates solar panels directly onto telecom towers, providing a practical answer to the problem of limited land and urban space for renewable energy systems.

Ethiopia is emerging as a solar energy hotspot in Africa, with photovoltaic (PV) energy storage projects playing a pivotal role in its renewable energy transition.

On 25 August 2025, a quiet but powerful revolution began in Ethiopia that could reshape Africa's telecommunications industry for decades. Ethio Telecom, one of the continent's largest and oldest ...
