

Solar panel fraud has become a growing concern in the United States, leaving many homeowners stuck with hidden fees, inflated energy bills, and contracts they never fully understood.

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading...

No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

Beware of solar companies engaging in deceptive practices, including the submittal of falsified contracts. Some unethical sales representatives may lead customers to believe they are receiving an estimate for solar, only ...

Are solar panels a scam? Solar panels themselves are not a scam. When the sun shines on solar panels, they produce electricity that can be used to power appliances and devices in your home. Making your own solar ...

As solar grows in popularity, more scammers are targeting consumers. Here are three common solar scams to look out for, how to avoid them and how to report solar scams.

If you've been approached by someone offering to install solar panels at no cost or promising you'll never have to pay another electricity bill, be careful--it's likely a scam."

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install ...

If it sounds too good to be true, it probably is. The solar industry's explosive growth has created real opportunities for homeowners to save money and reduce their carbon footprint. But it's also attracted ...
