

In Vilvoorde, on the outskirts of Brussels, Belgium, mainland Europe's largest battery energy storage system has reached a major milestone.

GIGA Storage Belgium recently signed an agreement with Tractebel as Owners Engineer, and the Stadsbader-Sweco joint venture as the construction team. Stadsbader Group will oversee ...

The project marks a significant new milestone in expanding the collaboration between NHOA Energy and ENGIE, as it follows the ongoing construction of the 400 MWh Kallo BESS, another flagship...

ENGIE has officially completed both phases of its 200 MW battery energy storage system (BESS) at Vilvoorde, Belgium.

French utility Engie SA (EPA:ENGI) said it has fully commissioned its 200-MW/800-MWh battery energy storage system (BESS) in Vilvoorde, Belgium, and is already looking into expanding ...

In a major step toward enhancing Europe's renewable energy infrastructure, SUNOTEC and Sungrow have signed a strategic agreement to deploy 2.4 GWh of battery energy storage ...

Energy company Engie, alongside battery energy storage system (BESS) provider Sungrow, announced this week the successful commissioning of the first phase of the 200 MW/800 ...

Battery storage secured nearly all new-build capacity in Belgium's latest capacity market auctions, cementing its central role in the country's power supply plans through 2030.

Sungrow and Engie have connected the first phase of a 200MW/800MWh BESS project, one of the largest in Europe, to the grid in Belgium.

Belgium has marked a significant milestone in Europe's energy transition with the successful completion of the first phase of the Terhills Battery Energy Storage System (BESS).
