

# Long-term bulk procurement of energy storage containers

After a decade of lithium-ion procurement, the leading clean energy states are finally turning their attention to long duration energy storage. Although it may still seem like a new idea, state-mandated ...

And the more nascent long-duration storage sector could benefit even more than traditional batteries. On Monday, Governor Kathy Hochul announced New York's first bulk procurement for storage, ...

California will solicit up to 2 GW of long-duration energy storage resources as part of a 10.6-GW centralized procurement for emerging clean energy technologies to be deployed between 2031...

The procurement schedule, consistent with Section 83E will ensure: (i) approximately 1,500 megawatts of Mid-Duration Energy Storage shall be procured by July 31, 2025, and shall be for ...

Chapter 1 (Market Evolution) provides historical policy and planning context to the evolution of California's market for stationary energy storage from about 2010 when California Assembly Bill 2514 directed the CPUC ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), Power Purchase ...

NYSERDA is providing incentives that can help accelerate deployment of bulk energy storage projects that provide wholesale market energy, ancillary services, and/or capacity services.

From the perspective of the industry, the relief could not come soon enough. With the increasing penetration of renewable energy resources, the demand for energy storage resources that can provide ...

From the perspective of the industry, the relief could not come ...

The forecast need of energy storage for the next 15-20 years is being mostly driven by renewable energy goals, carbon policies, economic conditions, and the retirement of conventional generation sources. The most ...

A second long-standing challenge for market designers and regulators has been establishing conditions under which efficient long-term contracting among market participants can take place.
