

Long-term photovoltaic energy storage cabinetized terminals at bahrain ports

At the end of the solar implementation project, APM Terminals Bahrain will have installed 20,000 solar photovoltaic panels capable of generating 18.5 Gigawatts of electricity per year.

By implementing this project, the terminal will reduce its carbon emissions by 65% while also securing a reliable and sustainable source of energy, effectively making Khalifa Bin Salman Port the region's first fully energy ...

APM Terminals Bahrain, the operator of Khalifa Bin Salman Port, has officially announced the launch of a ground-breaking solar power project worth approximately BHD3.8 million ...
