

Longi 485w photovoltaic panel specifications

What is Longi 485w solar panel?

The Longi 485W Solar Panel (LR5-66HPH 480-505M) is a high-performance solar module based on M10 Gallium-doped wafers, delivering exceptional energy efficiency. It features 9-busbar half-cell technology and advanced smart soldering, ensuring superior power generation even under low light conditions.

What is LONGi Solar 485wp Hi-mo X10 explorer lr7-54hvh-485m?

LONGi Solar 485Wp Hi-MO X10 Explorer LR7-54HVVH-485M is a high-efficiency monocrystalline photovoltaic module designed for residential and commercial installations. With a nominal power of 485W and an efficiency of 23.8%, it uses BC-cell (Back Contact) technology that maximizes light absorption and improves overall energy production.

What is the Pmax of a 485 watt solar panel?

Temperature Coefficient of Pmax: $-0.350\%/^{\circ}\text{C}$, ensuring optimal performance in varied climates.

Long-Term Reliability: 25-year power warranty with $<0.55\%$ degradation from year 2 to 25. LONGi 485W Solar Panel (LR5-66HPH, 480-505 Watt) - Hi-MO BM LRS-66HPH module based on M10-182mm wafer.

Why should I use Longi?

LONGi provides you with the most comprehensive product data information so that you can quickly understand LONGi's full range of products.
