

Specializing in tailored solar PV, battery storage solutions, and electric vehicle charging (EVC) infrastructure. We help clients transition effectively toward sustainable energy independence.

In early June, Greentown Company, a subsidiary of Lin-gang Group, announced the construction of Shanghai's first large-scale industrial and commercial solar-plus-storage microgrid project within the Tesla ...

MAJOR LAUNCH: The Future of Temporary Power Is Here ? Introducing the Mainland Power Off-Grid System We've combined solar + battery + EV charging + smart control to create the most versatile...

It will be Tesla's first grid-side energy storage station to be built on the Chinese mainland. Dong Kun, general manager of Tesla China's energy business, said the station, once launched, will participate in ...

U.S. car manufacturer Tesla has signed an agreement with Chinese partners to develop a grid-side energy storage station in Shanghai. The project will utilize Tesla's Megapack energy storage batteries ...

We offer comprehensive solar installation services for residential, commercial, and industrial clients. Our goal is to reduce carbon footprints and help you achieve energy independence with high-quality solar panels and ...

Located in the Lin-gang Special Area of the Shanghai Pilot Free Trade Zone, the project will feature Tesla's utility-scale Megapack batteries and serve as a grid-side energy storage station--marking a ...

Jinchang Solar Power Station in Gansu is CLP's first solar project in the Mainland. Construction was completed in the second quarter of 2013 and began operation in July 2013.

With output capacity of 73.7MW, Yangzhou Gongdao Solar Power Station is the first unsubsidised photovoltaic project in Jiangsu province and CLP's first grid-parity solar project on the Chinese Mainland.

The first phase of the power station, which became operational at the end of 2023, has already proven its worth. It has successfully generated over 40 million kilowatt-hours of electricity, providing much ...
