

The Public Service Commission of the District of Columbia (Commission) has issued a Request for Proposals (RFP) for the Transactive Neighborhood Renewable Microgrid Pilot Project, an initiative ...

Here you'll find news and features about the various kinds of microgrids: commercial, remote, military, campus, data center, community, industrial, residential, critical infrastructure and utility microgrids.

Building resilience through microgrids. Perhaps the most ambitious PowerPath DC initiative is the Transactive Neighborhood Renewable Microgrid ...

After an extensive design and development process, the "educational microgrid" at Santa Fe Community College (SFCC) - also known as the "greenhouse microgrid" and the "nanogrid" - was tested, ...

A resource based on this pilot project will be created with what we learn and shared here so that others can learn about creating a microgrid that can use electric vehicles as a power source.

Discover Microgrids Across the United States with Clean Coalition. Explore our projects and their impact on sustainable energy.

In service from 2015-2025, the Beck Hill Microgrid was a pilot project that used solar photovoltaic panels and batteries to test the potential of using a small microgrid to improve the reliability of electric ...

Building resilience through microgrids. Perhaps the most ambitious PowerPath DC initiative is the Transactive Neighborhood Renewable Microgrid Pilot Project. This project aims to ...

The Transactive Neighborhood Renewable Microgrid Pilot Project aims to create an innovative, multi-customer microgrid demonstration project within the District of Columbia.

Approaches include developing reports considering key concerns, developing a task force to provide recommendations on how to incorporate microgrids in resiliency planning, creating funding ...

Operational Resilience for Microgrids Another of the projects will team NREL with University of North Carolina-Charlotte and others to integrate resilient operations into microgrid ...
