

Modular Energy Storage Cabinet IP55 Promotion

55kWh air-cooled energy storage cabinet with IP55/IP66 protection, designed for industrial and commercial photovoltaic energy storage applications.

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal temperature condition.

Our cutting-edge energy storage solutions are designed to meet the growing demand for reliable, efficient, and eco-friendly power systems in an increasingly energy-conscious world.

High-reliability modular outdoor electrical cabinets featuring IP55 protection, 60KA lightning protection, and energy-saving design for harsh environments.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

IP55 outdoor battery storage cabinets for reliable energy solutions. Durable, waterproof design for solar and UPS systems. Perfect for both indoor and outdoor use.

It is the ideal turnkey asset for utility-scale applications, commercial & industrial (C& I) projects, and remote micro grids. Built to thrive outdoors, the cabinet boasts a high IP55 protection rating, ...

With its advanced features, modular design, and expandability, this battery pack is an excellent choice for those seeking a robust and future-proof energy storage system.

Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO4 battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...
