

A groundbreaking step towards sustainable urban mobility, the solar-powered carport at Hauz Khas Village offers fast EV charging, supporting Delhi's green energy initiatives.

Philipp Ackermann, German Ambassador to India and Bhutan, recently inaugurated a grid-connected solar-powered EV charging station at Hauz Khas Village Parking Station in Delhi.

It provides fast charging for two- and four-wheelers in under an hour, enhancing efficiency for delivery services in urban areas. The project not only promotes sustainable energy use but also ...

This Solar-Powered EV Charging Carport, established as a pilot project at the Hauz Khas Village parking station, marks a significant milestone in sustainable energy and electric vehicle ...

Servotech Power Systems Ltd., in collaboration with India's apex solar organization, the National Solar Energy Federation of India (NSEFI), has inaugurated Delhi's first grid-connected Solar ...

This Solar-Powered EV Charging Carport was first tested at the Hauz Khas Village parking area. It marks a significant step in improving sustainable energy and electric vehicle infrastructure. ...

The system allows for fast charging of two and four-wheelers in less than 1 hour while providing delivery services in inner city and confined spaces. The concept was conceptualized by NSEFI and BSES to ...

The National Solar Energy Federation of India (NSEFI) and Servotech Power Systems Ltd. launched Delhi's first grid-connected solar-powered EV charging carport. This solar-powered electric ...
