

AIFFP is investing in Palau's grid upgrades and battery storage to enable more solar power, reduce diesel reliance and support Pacific climate leadership.

Underwater compressed air storage (uses old WWII wrecks as tanks) Algae-powered biogas plants (smells better than diesel) Volcanic rock thermal storage (geothermal meets Stone Age tech)

Renewable power pioneer Alternergy Holdings Corp. and its subsidiary Solar Pacific Energy Corporation celebrated the official launch of the Republic of Palau's first solar and battery energy storage system ...

Philippine renewable energy firm Alternergy and its subsidiary Solar Pacific Energy Corporation (SPEC) have recently launched the Republic of Palau's first solar and battery energy storage system (BESS) ...

As island nations like Palau seek energy independence, household energy storage systems emerge as game-changers. This article explores how cutting-edge power supply production meets Palau's ...

Alternergy Holdings Corp. and its subsidiary Solar Pacific Energy Corporation have inaugurated Palau's first solar PV + battery energy storage system (BESS) project, marking a ...

An AIFFP loan and grant package has supported Solar Pacific Pristine Power to build Palau's first solar and battery energy storage facility, key to its transition to renewable energy.

The data center energy-storage market continues to grow rapidly, driven by the need for reliable backup power, grid stability, and energy cost management. Key drivers include cost reduction, ...

From disaster resilience to cost savings, Palau's energy storage cooperation model offers more than just batteries in boxes - it's an energy insurance policy for island nations.

FPL's Manatee Energy Storage Center is one of the world's largest integrated solar-powered battery system, featuring 409 MW of capacity - enough to power more than 300,000 homes for a couple hours.
