

The 110-megawatt battery portion of the Paris Solar-Battery Park came online in June 2025. The 200-MW solar portion of the project went into service in December 2024. The storage facility is made up of batteries ...

(WGTD)---The 200 megawatt solar farm in the Town of Paris is now complete. The site began producing power last December, but the battery park went online this week. It's the state's first large-scale ...

The first large-scale energy storage project in Wisconsin history, the Paris Solar-Battery Park, has been officially launched in Kenosha County. The site combines a massive solar field with a battery system ...

PARIS -- A historic energy project is now live in Kenosha County, and it's charging up Wisconsin's future. We Energies has officially launched the Paris Solar-Battery Park, the first large-scale...

(WGTD)---The 200 megawatt solar farm in the Town of Paris is now complete. The site began producing power last December, but the battery park ...

Wisconsin's first large-scale energy storage project, the Paris Solar-Battery Park in Kenosha County, is now providing power to the grid. It's comprised of around 12,000 lithium-ion batteries collectively ...

WISCONSIN -- The state's first large-scale energy storage project is now up and running. We Energies announced on Tuesday that the Paris Solar-Battery Park in Kenosha County has started serving ...

While tourists joked about athletes needing portable generators, France's energy sector was already sprinting toward a solution: large-scale energy storage power plants.

This project is proposed by an independent power producer, Paris Solar Farm, LLC, a wholly owned subsidiary of Invenenergy LLC. As such, the need for the project is not reviewed by the Commission.

The 110-megawatt (MW) battery portion of the Paris Solar-Battery Park went online this month, while the 200-MW solar portion of the project went into service in December.
