Pressure Causes Microcracks in Panels
Transporting Solar Panels Is A Delicate Process
Prepare For The Pickup Ahead
When Carrying A Panel, Don't Apply Pressure
So what do manufacturers do to ship panels without damaging them? Usually, to transport solar panels, a pallet is used. Here is how a good company packs it:
o First panels go on the pallet bottoms up and the last one is placed front side up.
o Corner protectors and foam pads across the frame are added.
o Usually a piece of cardboard or plastic is p...
