

The Kingsine KF85P is a multipurpose, light-weight, field portable test set, it capable of testing a wide variety of electro-mechanical, solid state and microprocessor based protective relays, motor overload ...

Time saving, comprehensive, lightweight, and portable product designed for testing a wide variety of protective devices.

The 30-W power-supply design can handle an ultra-wide range of both AC and DC inputs, making the power supply design a suitable platform for a variety of protection relays.

Find the perfect power supply for your application, whether for the DIN rail, suitable for panel mounting, or in 19" format for rack mounting. Our power supplies for the DIN rail offer particularly high system ...

A multi-purpose variable voltage power supply available in AC, DC, or AC/DC for all in-shop and field-service electrical technicians.

A portable cathodic protection power supply with 60V, 30A DC output and a built-in solid state interrupter. The Universal Rectifier model TR-3 air cooled cathodic protection test rectifier is a ...

The Universal Rectifier model TR-2 air cooled cathodic protection test rectifier, is a portable cathodic protection power supply used for a variety of CP field test scenarios.

Provide auxiliary dc power to your protective relays in the classroom or lab. The SEL-LPS Linear Power Supply is backed by our 10-year worldwide warranty. The SEL-LPS is a general-purpose dc supply ...

The power supply is equipped with RS485 interface and can communicate with the computer through the MODBUS protocol. It supports multi machine communication and reliable verification. Each 485 ...

The equipment is suitable for a variety of relay field calibration and performance test. So this model relay test set is a good ideal tool for power engineering company to test over-current relay and over ...
