

Charge your batteries on and off the water with Powerhouse Lithium DC chargers. Available in 12v, 16v, 24v, and 36v units. Specially programmed for the type Cranking battery you are running. Maximize your time on the ...

Powerhouse Lithium Run & Gun DC to DC Chargers offer efficient and versatile charging for marine vessels. Available in 16V, 24V, and 36V variants, these chargers facilitate on-water and off-water battery charging.

Powerhouse Lithium Run & Gun DC to DC Chargers offer efficient and versatile ...

PowerHouse Lithium 36V Run & Gun DC to DC Charger Our Run & Gun Chargers are specially programmed for the type of cranking battery you are running and are voltage triggered so that you maintain 80% or better on ...

Setting up 12v or 16v Run & Gun by itself: You need to have a minimum of 10 amps charging the cranking battery with no more than 20 amps to operate the run and gun charger properly.

Charge your batteries on and off the water with our PowerHouse Lithium 12V Run & Gun DC to DC Charger. These chargers are great at maximizing your time on the water without having to charge after each outing.

Our Lithium Run & Gun DC-to-DC chargers offer a reliable and efficient solution for adventurers, professionals, and outdoor enthusiasts alike.

Engineered for reliability, this compact charger draws power directly from your outboard or alternator, keeping your lithium batteries charged and ready without interrupting your time on the water.
