

This project is one of the key agricultural photovoltaic power generation projects in Wanning City, making full use of the local barren slopes and abundant solar energy resources, transforming natural ...

A prime example is the solar-storage-diesel hybrid microgrid project in the Maldives. By delivering PV, energy storage systems, and diesel generators with a smart energy management ...

Trina's all black TOPCon modules are smaller in size and higher in power, requiring fewer panels per rooftop for the same or more power generation, saving installation time and cost.

31 March, 2021 Trina Solar recently completed its second project of an off-grid PV power generation project to energize a newly built vocational training school in Pak Ngum, Laos.

Trina Solar has announced that a 100MW agrivoltaic farming project in Wanning, China's Hainan province, deploying Vertex N 720W series modules, has been connected to the grid. Average ...

Chinese President Xi Jinping pushed for a vibrant, high-quality private sector in a Beijing symposium on private enterprises on Monday. That's reflected in C...

Trina Solar's flagship Vertex Series represents the company's most advanced solar panel technology, featuring innovative 210mm large-size wafer technology that delivers industry-leading ...

In Bohol, the Philippines' first UNESCO Global Geopark, Trinasolar supplied its first large-scale solar farm, Dagohoy solar power project, which was successfully connected to the grid in...
