

The Air-cooled C& I (Commercial and Industrial) Battery Energy Storage System (BESS) Cabinet is a versatile energy storage solution designed for a wide range of users across various industries.

Offering flexibility at its core, the system allows for a versatile configuration with battery cells from all major brands (280Ah), ensuring adaptability to diverse user preferences and specific energy storage ...

The air-cooled energy storage cabinet features modular battery packs and an advanced cooling system, ensuring efficient and reliable energy storage. With a long cycle life of over 4000 cycles at 80% DOD ...

Multi-level battery protection system, impeccable safety: features both grid power and backup power interfaces to ensure uninterrupted power supply for critical loads. Features black start ...

The ELECOD Outdoor Cabinet Energy Storage System (Air-Cooled) is a highly efficient and scalable energy storage solution, designed for use in microgrid scenarios such as commercial, industrial, and ...

It comes with advanced air cooling technology to quickly convert renewable energy sources, such as solar and wind power, into electricity for reliable storage. The air-cooled cabinet is a cost-effective, ...

The All-in-one air-cooled ESS cabinet adopts an advanced cabinet-level cooling and temperature balancing strategy. The modular design makes the parallel solution more flexible, ideal for small C& I ...

The ECO-64WX is an all-in-one air-cooled hybrid energy storage cabinet integrating PV, battery, and control systems. Compact, efficient, and flexible, it supports self-consumption, peak shaving, and ...

Unlock energy independence and maximize ROI with the Cooli Smart 100kW/215kWh Air-Cooled Energy Storage Cabinet. Engineered for commercial and industrial resilience, this high-density ...

Long-life battery cells, a high-precision BMS, efficient PCS, intelligent power distribution, active safety protection, and an optimized air-cooling system are fully integrated inside one cabinet. It's built for ...
