

Does SunPower still make solar panels?

Originally named Eos, the company later rebranded as SunPower and became a driving force in solar technology. Though SunPower no longer manufactures panels directly--having spun off its panel production to Maxeon Solar Technologies in 2020--it continues to design solar systems and energy storage solutions.

Is SunPower a good solar company?

SunPower's cell technology earned the company its reputation as the most efficient on the market. Although it stopped manufacturing its own products in 2020, SunPower designed three lines of residential solar panels: SunPower Maxeon (M-Series), SunPower Performance (P-Series), and the U-Series.

Why should you choose SunPower?

Imagine a home or business where solar panels capture energy, intelligent batteries store and manage electricity, and your entire property becomes a smart, responsive energy environment. We're making that vision a reality. The SunPower name represents decades of solar innovation. High-efficiency solar panels tested for durability.
