

Will Japan's first dedicated Energy Storage fund be funded by private investors?

Suminori Arima, Chief Investment Officer at Gore Street Capital, commented: "We are pleased to announce the completion of this fundraising round for Japan's first dedicated energy storage fund, which has received support from private and public investors.

What is Japan's Battery Storage fund?

The Fund will primarily focus on the Kanto region, home to approximately a third of Japan's population. This is Japan's first specialised fund dedicated to the integrated development and operation of battery storage facilities, including those co-located with renewable energy projects.

What is the GI Energy Storage fund?

The Fund is managed by GI Energy Storage Management, which was jointly established with Gore Street Capital (GSC), and is Japan's first dedicated fund that handles everything from investment and development to operation in new energy storage plants (including those with renewable energy facilities) in the Kanto area and elsewhere.

What is the business case for energy storage in Japan?

The business case for energy storage in Japan is currently centred around a 20-year fixed-price contract acquired through the long-term decarbonisation auction, presenting a low-risk model. However, the merchant business model in Japan has the potential to unlock significant upside and result in higher returns, making it an attractive opportunity.
