

# Turnkey Project for 220V Outdoor Communication Cabinets in Network Server Rooms

What is an outdoor floor standing server cabinet enclosure?

AZE's outdoor floor standing server cabinet enclosures are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. They have a rain hood and water and dust proof polyurethane door joint strip features, all fixtures are internal to the cabinet to provide a secure solution.

Why do you need an outdoor electrical server cabinet enclosure?

Generally, you need an outdoor electrical server cabinet enclosure to protect the electrical components from the environment. The enclosures, as the name suggests, enclose electrical or electronic equipment thus preventing users from electrical risks like shock, etc. That is the general perspective on why you need a free-standing server enclosure.

What is a free-standing outdoor server cabinet?

A free-standing outdoor server cabinet or enclosure is a kind of a cabinet that houses electrical components and parts. What makes it unique from other enclosures is that it stands alone.
