

Want to buy a home solar power generator

Should you buy a solar generator or a gas generator?

Gas generators still have a place in extreme backup scenarios, but for most households, solar covers the essentials without the fumes or fuss. And if you do need something with more output, especially for larger homes, it's worth looking into the whole house generators that offer robust power and automatic operation.

Should you buy a home generator?

To be safe, it's best to invest in a home generator that can provide backup power as needed. While many bigger home generators run on liquid propane or gas, there are a number of newer models that run on solar energy.
