

The XW Pro leads Schneider Electric Solar's hybrid inverter range, as it provides installers with the flexibility to design and install a complete solar and storage system.

On July 13th, Xiangxin Technology said that the company had won the bid to be the supplier of distributed small three-phase 10K inverter products of the customer. The project life cycle ...

Xiangxin Technology becomes the supplier of photovoltaic inverter products in digital energy distributed projects

The company offers solar inverters under the "Solis" brand and maintains a global supply chain with world-class solar inverter manufacturing and R& D facilities.

This project, titled the "Construction Project of Dongguan Energy Storage, Photovoltaic Inverter, and Power Battery Box Production Base," is funded by the capital raised from the private issuance of A ...

The company will seize this market opportunity and vigorously develop related businesses in the new energy vehicles, power batteries, photovoltaic inverters and energy storage industries.

Power inverters, which are predominantly produced in China, are used throughout the world to connect solar panels and wind turbines to electricity grids.

On July 13th, Xiangxin Technology said that the company had won the bid to be the supplier of distributed small three-phase 10K inverter products of the customer.

Confirmed that the Company is a supplier of energy storage structural parts, industrial and commercial inverter assembly and structural parts projects, with an estimated total project amount of RMB9-10 ...

All of the capital raised in this capital increase will be used for the implementation and construction of the "Dongguan Energy Storage, Photovoltaic Inverter and Power Battery Case Production Base ...
